

MODEL LM 4

DISCOVER THE PERFORMANCE

If you can find a heavier, more powerful mill with more standard equipment than the LOG-MASTER **Model LM 4** CAT® powered sawmill, then you should buy that sawmill!

You want power and performance...you want it at a low price...you want the **Model LM 4** from LOG-MASTER! Powered by the 51 HP CAT®, 4-cylinder, liquid cooled diesel engine. LOG-MASTER is the first portable sawmill to use CAT® diesel engines. The CAT® powered engines set the world's standard on high performance, rugged, reliable and dependable high-torque diesel power. This sawmill will effortlessly cut a hefty 36" diameter log 24 feet long.

STANDARD FEATURES INCLUDE:

- 51 HP CAT® diesel engine
